ARCHITECTURAL & ORNAMENTAL FABRICATION

We **NITHI STEEL INDUSTRIES LLC** have diversity of Projects, allied to our skills in providing light and heavy fabrication, has enabled us to gain a wealth of experience and knowledge to assist in all aspects of our clients requirements from initial concept, through design and production of CAD drawings, to manufacture and completion of product of prototype or batch work.

Projects undertaken can either be manufactured as per your approved drawings or alternatively we can assist you with the aid of our in-house design team and CAD system.

We work with all metal types both ferrous & non-ferrous, suitable for internal & external uses. With a variety of finish processes for both aesthetic and practical purpose can be carried out, including chroming, powder coating, galvanizing, spray primed coats, wet spray top coats, polyester powder coat finishes. For Stainless Steel & Brass we can offer brushed & high polished finishes and various shades of antique finishes.

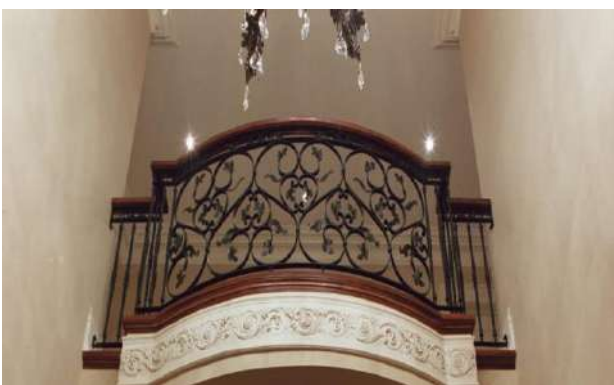

Additionally, we can do site installation on your projects if required, therefore enabling you to benefit from our one stop shop for your project.

Ultimately as a bespoke company we endeavor to provide our clients with a first-class service and any project, however large or small, will be treated with same integrity.

Our clients have included Hotel, Restaurant, Fit out contractors, Furniture makers, Architectural design & Construction consultancies, Shop fitting specialists.
